## Sistema scorrevole /

## Sliding system

### IT

Il sistema scorrevole è composto da un binario regolabile a una o più vie, contenuto in una trave d'alluminio con fissaggio a parete o a soffitto, incassata nel cartongesso o sospesa. Trave e binario vengono forniti sezionati su misura. Le ante, prodotte nella versione mono lastra Aladin Slide Mono, Sherazade Slide o doppia lastra Aladin Slide Duo, con telaio d'alluminio disponibile in quattro finiture, vengono appese al binario per mezzo di carrelli con scorrimento fluido e silenzioso. La chiusura delle ante, grazie a dei rallentatori posti a fine corsa, risulta essere molto dolce e precisa. Le ante possono anche essere bloccate e utilizzate come pannellature divisorie fisse; è inoltre possibile montare maniglie con o senza serratura e profili di battuta di diverse tipologie. Il sistema non ha guida a terra.

### EN

The sliding system is composed by an adjustable one-way or more-ways rail, contained in an aluminium beam, fixed whether on the wall or on the ceiling, recessed into the drywall or hanging. Beam and rail are supplied custom-cut. The glass doors, produced in the single glass version Aladin Slide Mono, Sherazade Slide or double glass Aladin Slide Duo, aluminium frame available in four different aluminium finishing, are hanged on the rail thanks to carriages with fluid and silent sliding. The closing of the doors, thanks to a soft motion placed at the end of the rail, is very soft and precise. Doors can be also blocked and used as fixed wall partitions. It is possible to assemble different handles with or without lock and different kinds of door-strikers profiles. The system has no guiding tracks.

### FR

Le système coulissant se compose d'un rail réglable à une ou plusieurs voies, contenu dans une poutre en aluminium avec fixation au mur ou au plafond, encastrée dans le Placoplatre ou suspendu. Poutre et rail sont fournis coupés sur mesure. Les portes en cristal, produites dans la version cristal simple, Aladin Slide Mono, Sherazade Slide ou double cristal, Aladin Slide Duo, avec cadre en aluminium disponible en quatre finitions, sont accrochées au rail au moyen de chariots avec glissement doux et silencieux. La fermeture des portes, grâce à un système de ralentissement en fin de course, est très douce et précise. Les portes peuvent aussi être bloquées et utilisées comme panneaux de cloisonnement fixes ; c'est en outre possible monter poignées avec ou sans serrure et différents modèles de profil de feuillure. Le système n'a pas de guidage au sol.

### ES

El sistema corredero está compuesto por una guía regulable a una o más vías, contenida en una viga de aluminio con fijación a pared o a techo, empotrada en el pladur o suspendida. La viga y la guía están equipadas cortadas a medida. El sistema no tiene guía a suelo. Las puertas en cristal, producidas en la versión mono vidrio Aladin Slide Mono, Sherazade Slide o doble vidrio Aladin Slide Duo, con el marco de aluminio, disponible en cuatro medidas, se cuelgan a la guía por medio de carretillas con desplazamiento fluido y silencioso. El cierre de las puertas es muy suave y preciso, gracias a un sistema de ralentización puesto al final de la guía. Las puertas se pueden bloquear y utilizar como paneles divisorios fijos; es también posible montar manillas con o sin cerraduras y perfiles de golpe de diferentes tipos. El sistema no tiene guía a suelo.

### DE

Schiebsystem besteht aus einer verstellbaren Ein- oder Mehrläufigschiene, die in einem Tragbalken aus Aluminium enthalten ist. Der Tragbalken, wird an der Wand oder an der Decke befestigt, integriert im Gipskarton oder hängend. Der Tragbalken und die Schiene sind vorhanden nach Maß geschnitten. Die Einzelglas Aladin Slide Mono, Sherazade Slide oder Doppelglas Aladin Slide Duo hergestellten Glastüren mit Aluminiumrahmen, in vier Ausführungen verfügbar, werden durch Laufwagen mit fließendem und geräuschlosem Lauf an die Schiene aufgehängt. Das Türschließen, durch ein Endlauf-Verlangsamungs-System, ist ganz leicht und genau. Die Paneele können blockiert und als feste Trennwände verwendet werden: es ist auch möglich, Klink mit oder ohne Schloss und verschiedene Anschlagprofile der Seitenleisten zu montieren. Das System hat keine Bodenführung.

## Sherazade Pocket

### IT

Le ante Sherazade Pocket, prodotte su misura e perfettamente integrabili nei più diffusi sistemi di porte scorrevoli a scomparsa senza stipite, quali Scrigno Essential® Scorrevole ed Eclisse® SyntesisLine, hanno un vetro temperato monolitico da 6 mm o stratificato 3+3 mm inserito tramite una guarnizione al centro di un telaio d'alluminio, fornito in quattro diverse finiture. I vetri, disponibili in una vastissima gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI ENI 2150. Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. Le due versioni ad anta singola e ad anta doppia possono essere fornite con o senza serratura. A richiesta vengono forniti anche i controtelai per cartongesso e intonaco.

### EN

The Sherazade Pocket doors are custom-made, can be integrated into the most common systems of frameless sliding pocket doors such as Scrigno Essential® sliding and Eclisse® Syntesis Line and The monolithic 6 mm. or laminated glass 3+3 mm thick tempered glass is inserted by means of a seal in the center of the aluminum frame, which is supplied in four different finishes. The glass, available in a wide range of finishes are certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware and in wood with different finishes and essences are available too. The two versions, with single or double door, can be supplied with or without the lock. Subframes for plasterboard or brick walls can be provided on demand.

### FR

Les portes Sherazade Pocket, produites sur mesure et parfaitement intégrables dans les plus diffuses systèmes de portes coulissantes à galandage sans cadre comme Scrigno Essential® coulissant et Eclisse® Syntesis Line, ont un verre monolithique trempé 6 mm ou stratifié 3+3 mm inséré par un joint au milieu de un cadre en aluminium, fourni en quatre finitions différents. Les verres sont disponibles dans une large gamme de finitions, ils sont certifiés selon les normes de sécurité ANSI Z97.1 et UNI ENI 2150. Panneaux en grès et bois en différentes finitions et essences sont également disponibles. Les deux versions, avec porte simple ou double porte sont fournies avec ou sans serrure. Sur demande les contre-châssis pour Placoplatre et pour béton sont fournis.

### ES

Las puertas Sherazade Pocket son producidas a medida y son perfectamente integrables en los sistemas de puertas correderas empotradas sin jamba más utilizados, como Scrigno Essential® corredera y Eclisse® Syntesis Line. Estos paneles tienen un cristal templado monolítico de 6 mm o estratificado 3+3 mm está insertado por medio de una junta en el centro del marco de aluminio, suministrado en cuatro diferentes acabados. Los cristales, disponibles en una amplia gama de acabados, son certificados según las normativas de seguridad ANSI Z97.1 y UNI ENI 2150. Están disponibles también paneles de gres y madera con diferentes acabados y esencias. Las dos versiones, con puerta singular o doble, pueden ser suministradas con o sin cerradura. A petición pueden ser suministrados los contramarcos para pladur y ladrillo.

### DE

Sherazade Pocket Türen werden nach Maß hergestellt und sind mit den meistverbreiteten Führungsschienensystemen von rahmenlosen Schiebe-Taschentüren wie Scrigno Essential® und Eclisse® SyntesisLine kombinierbar. Das Glas kann 6 mm. stark monolithisch gehärtet oder 3+3 mm. stark beschichtet sein und es ist mittels einer Dichtung in der Mitte eines Aluminiumrahmens eingesetzt, der in vier verschiedenen Ausführungen erhältlich ist. Die Gläser, die in einer Vielzahl von Ausführungen erhältlich sind, sind gemäß ANSI Z97.1 und UNI ENI 2150 zertifiziert. Gres- und Holzpaneele in verschiedenen Ausführungen und Hölzern sind ebenfalls erhältlich. Die zwei Varianten, Einzeltür und Doppeltür, können mit oder ohne Schloss vorhanden sein. Auf Wunsch können Doppelrahmen für Gipskarton- und Betonwände geliefert werden.

## Sherazade Swing Plain

### IT

Sherazade Swing Plain è una porta a battente prodotta su misura, che si distingue per la grande pulizia formale e la cura dei dettagli, in cui il telaio dell'anta è a raso muro. Un vetro temperato monolitico da 6 mm. o stratificato da 3+3 mm. è inserito tramite una guarnizione nel telaio d'alluminio, fornito in quattro diverse finiture. I vetri, disponibili in una vastissima gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI ENI 2150. Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. È possibile montare tre tipi di serratura (senza blocco, con cilindro, con nottolino) e scegliere tra maniglia o pomolo, che sono forniti nella stessa finitura del telaio. Le cerniere sono a perno regolabili. Il controtelaio in alluminio decapato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti.

### EN

Sherazade Swing Plain is a custom made swing door with a concealed frame, which stands out for its clean lines and attention to detail, whose door panel fits flush to the wall. The monolithic 6 mm. or laminated 3+3 mm. thick tempered glass is inserted by means of a seal in the aluminium frame, which is supplied in four different finishes. The glasses are available in a wide range of finishes and they are certified according to the safety regulations ANSI Z97.1 and UNI ENI 2150. Panels in stoneware and in wood with different finishes and essences are available too. It is possible to assemble three kinds of lock (without block, with cylinder, with revolving plug) and choose between handle or knob and they are supplied in the same finish of the frame. The hinges are with adjustable pivot. The pickled aluminium subframe, invisible when the door is closed, is available for both cement and plasterboard walls and it can be varnished during the painting of the walls.

### FR

Sherazade Swing Plain est une porte battante produite sur mesure, qui ressort pour l'extrême essentialité et le soin des détails, dont le châssis de la porte est à fleur avec le mur. Un verre trempé monolithique de 6 mm ou stratifié de 3+3 mm est inséré par un joint dans le cadre d'aluminium, disponible en quatre finitions différentes. Les verres sont disponibles dans une large gamme de finitions, ils sont certifiés selon les normes de sécurité ANSI Z97.1 et UNI ENI 2150. Panneaux en grès et bois en différentes finitions et essences sont également disponibles. Il est possible d'équiper trois types de verrouillage (sans serrure, avec cylindre, avec verrou) et choisir parmi la poignée ou le pommeau qui sont fournis dans la même finition que le cadre. Les charnières sont réglables à la broche. Le pré-cadre en aluminium décapé, invisible lorsque la porte est fermée, est disponible soit pour les murs de ciment soit pour le placoplâtre et peut être verni directement pendant la peinture des murs.

### ES

Sherazade Swing Plain es una puerta batiente producida a medida, que se distingue por su gran limpieza formal y atención a los detalles, cuyo marco es a ras de la pared. El cristal templado monolithico de 6 mm o estratificado 3 + 3 mm, está insertado por medio de una junta en el marco de aluminio, suministrado en cuatro diferentes acabados. Los cristales, disponibles en una amplia gama de acabados, son certificados según las normativas de seguridad ANSI Z97.1 y UNI EN12150. Estàn disponibles también paneles de gres y madera con diferentes acabados y esencias. Es posible montar tres tipos de cerradura ( sin bloque, con cilindro, con pasador de balancín) y elegir entre manilla o pomo, en el mismo acabado del marco. Las bisagras son de perno regulables.El contra marco en aluminio decapado, invisible cuando la puerta esta cerrada, está disponible tanto para paredes de cemento como de pladur y puede ser barnizado directamente con la pintura de las paredes.

### DE

Sherazade Swing Plain ist eine Drehtür bündig mit der Wand, nach Maß herstellt und von außergewöhnlicher Reinheit der Formen und besonderer Qualität des Details gekennzeichnet. Das Glas kann 6 mm. stark monolithisch gehärtet oder 3+3 mm. stark beschichtet sein. Es ist mittels einer Dichtung in dem Aluminiumrahmen eingesetzt, der in vier verschiedenen Ausführungen erhältlich ist. Die Gläser sind in einer sehr weiten Serie von Ausführungen verfügbar und sind gemäß ANSI Z97.1 and UNI ENI 2150 zertifiziert. Gres-und Holzpaneele in verschiedenen Ausführungen und Hölzern sind ebenfalls erhältlich. Man kann drei verschiedene Arten von Schloss (ohne Blockierung, mit Zylinder, mit Klinkeschloss) montieren und zwischen Klinke oder Knopf, in der selben Ausführung des Rahmens wählen. Die Zapfenscharniere sind verstellbar. Der Doppelrahmen aus dekapiertem Aluminium, unsichtbar bei geschlossener Tür, ist sowohl für Betonwände als auch für Gipskartonwände verfügbar. Die Rahmeninstallation muss während der Rohbauphase durchgeführt werden, die Feinbearbeitung direkt beim Streichen der Wände.

Un verre trempé monolithique de 6 mm ou stratifié de 3+3 mm est inséré par un joint dans le cadre d'aluminium, disponible en quatre finitions différentes. Les verres sont disponibles dans une large gamme de finitions, ils sont certifiés selon les normes de sécurité ANSI Z97.1 et UNI ENI 2150. Panneaux en grès et bois en différentes finitions et essences sont également disponibles. Il est possible d'équiper trois types de verrouillage (sans serrure, avec cylindre, avec verrou) et choisir parmi la poignée ou le pommeau qui, comme le montant, sont fournis dans la même finition du cadre.

### ES

Sherazade Swing Frame es una puerta batiente producida a medida, que se distingue por su gran limpieza formal y atención a los detalles, con jamba telescópica y bisagras de perno regulables. Un cristal templado monolítico de 6 mm o estratificado 3 + 3 mm, está insertado por medio de una junta en el marco de aluminio, suministrado en cuatro diferentes acabados. Los cristales, disponibles en una amplia gama de acabados, están certificados según las normativas de seguridad ANSI Z97.1 y UNI ENI 2150. Están disponibles también paneles de gres y madera con diferentes acabados y esencias. Es posible montar tres tipos de cerradura (sin bloque, con cilindro, con pasador de balancín) y elegir entre manilla o pomo, que como la jamba, están suministrados en el mismo acabado del marco.

### DE

Sherazade Swing Frame ist eine Drehtür, nach Maß herstellt und von außergewöhnlicher Reinheit der Formen und besonderer Qualität des Details gekennzeichnet, die einen teleskopischen Pfosten und verstellbare Zapfenscharniere hat. Das Glas kann 6 mm. stark monolithisch mrahmen eingesetzt, der in vier verschiedenen Ausführungen erhältlich ist. Die Gläser sind in einer sehr weiten Serie von Ausführungen verfügbar und sind gemäß ANSI Z97.1 and UNI ENI 2150 zertifiziert. Gres- und Holzpaneele in verschiedenen Ausführungen und Hölzern sind ebenfalls erhältlich. Man kann drei verschiedene Arten von Schloss (ohne Blockierung, mit Zylinder, mit Klinkeschloss) montieren und zwischen Klinke oder Knopf, in der selben Ausführung sowohl des Pfostens als auch des Rahmens wählen.

## Aladin Swing Plain Duo

### IT

Aladin Swing Plain Duo è una porta a battente raso muro prodotta su misura, con cerniere a perno regolabili.

Dei vetri temperati spessore 4 mm sono applicati su entrambe le facce di un telaio in alluminio, disponibile in quattro finiture, in modo da formare un volume con una camera d'aria interna. I vetri, disponibili in un'ampia gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze.

E' possibile montare diversi tipi di serrature e scegliere tra maniglia o pomolo nella stessa finitura del telaio.

Il controtelaio in alluminio decappato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti. Disponibile anche nella versione filo soffitto.

### EN

Aladin Swing Plain Duo is a custom-made swing door with a concealed frame and with adjustable pivot hinge openings.

The 4 mm thick tempered glasses are applied on both faces of an aluminium frame, available in four different finishes, so as to form a volume with an internal air chamber.

The glasses are available in a wide range of finishes and they are certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware and in wood with different finishes and essences are available too. It is possible to assemble different locks and choose either between handle and knob in the finishes as the frame.

The pickled aluminium subframe, invisible when the door is closed, is available for both cement walls and plasterboard and can be varnished during the painting of the walls. Available also in the version with frame flush with the ceiling.

### FR

Aladin Swing Plain Duo est une porte battante au ras du mur produite sur mesure, avec charnières avec pivot réglables.

Des cristaux trempés épaisseur 4 mm sont appliqués sur les deux côtés de un cadre en aluminium, disponible en quatre finitions, de manière à former un volume d'air intérieur.

Les verres, disponibles dans une large gamme de finitions, sont certifiés selon les normes de sécurité ANSI Z97.1 et UNI EN12150. Panneaux en grès et bois en différentes finitions et essences sont également disponibles.

C'est possible monter différents modèles de serrure et choisir entre poignée ou pommeau, dans la même finition du cadre.

Le pré-cadre en aluminium décapé, invisible lorsque la porte est fermée, est disponible pour les parois en ciment ou en Placoplatre et peut être verni directement pendant la peinture des murs. Disponible dans la version ras du plafond aussi.

### ES

Aladin Swing Plain Duo es una puerta batiente a ras de la pared producida a medida, con bisagras de perno regulables.

Los cristales templados de 4 mm de espesor están aplicados en ambas caras de un marco de aluminio, disponible en cuatro acabados, con el fin de crear un volumen con una cámara de aire interna. Los cristales, disponibles en una amplia gama de acabados, son certificados según las normativas de de seguridad ANSI Z97.1 y UNI EN12150. Estàn disponibles también paneles de gres y madera con diferentes acabados y esencias.

Es posible montar diferentes tipos de cerraduras y elegir entre manilla o pomo, en el mismo acabado del marco. El contra marco en aluminio decapado, invisible cuando la puerta está cerrada, está disponible tanto para paredes de cemento como de pladur y puede ser barnizado directamente con la pintura de las paredes. Disponible también en la versión hilo techo.

### DE

Aladin Swing Plain Duo ist eine Drehtür bündig mit der Wand, nach Maß hergestellt und mit verstellbaren Zapfenscharnieren.

Die Glasfüllungen sind je 4 mm stark und gehärtet und sie werden auf die Seite des Aluminiumrahmens, der in vier Ausführungen verfügbar ist, angebracht. Zwischen den Füllungen besteht einen Luftraum. Die Gläser, die in einer Vielzahl von Ausführungen erhältlich sind, sind gemäß ANSI Z97.1 e UNI EN12150 zertifiziert. Gres-und Holzpaneele in verschiedenen Ausführungen und Hölzern sind ebenfalls erhältlich.

Man kann verschiedene Arten von Schössern montieren und man kann zwischen Klinke oder Knopf, in dieselbe Ausführung des Rahmens, wählen. Der Doppelrahmen aus dekapiertem Aluminium, unsichtbar bei geschlossener Tür, ist sowohl für Betonwände als auch für Gipskartonwände verfügbar. Die Rahmeninstalltion muss während der Rohbauphase durchgeführt werden, die Feinbearbeitung direkt beim Wände streichen. Verfügbar auch in der Version mit Rahmen bündig mit der Decke.

## Aladin Pocket Frame Duo

### IT

Le ante Aladin Pocket Frame Duo, prodotte su misura e perfettamente integrabili nei più diffusi sistemi di porte scorrevoli a scomparsa, hanno vetri temperati spessore 4 mm applicati su entrambe le facce del telaio d'alluminio, disponibile in quattro diverse finiture, in modo da formare un volume con una camera d'aria interna. La porta viene fornita completa di stipite telescopico in alluminio con dimensioni standard da 90 a 110 mm nella stessa finitura del telaio dell'anta. Per dimensioni maggiori devono essere considerati gli extra prezzi indicati. I vetri, disponibili in un'ampia gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. Le due versioni, ad anta singola e ad anta doppia, posso essere fornite con o senza serratura. A richiesta vengono forniti anche i controtelai per cartongesso e intonaco.

### EN

The Aladin Pocket Frame Duo doors are custom-made, can be integrated into the most common pocket systems of sliding pocket doors and have 4 mm thick tempered glass applied on both faces of the aluminium frame, available in four different finishes, so as to form a volume with an internal air chamber. The door is supplied with telescopic aluminium jambs, from 90 up to 110 mm, in the same finish as the door frame. For larger dimensions, additional costs as specified must be taken into consideration. The glasses are available in a wide range of finishes and they are certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware and in wood with different finishes and essences are available too. The two versions, with single or double door, can be provided with or without lock. Subframes for plasterboard or brick walls can be provided on demand

### FR

Les portes Aladin Pocket Frame Duo, produites sur mesure et parfaitement intégrables dans les plus diffuses systèmes de portes coulissantes escamotables, ont des cristaux trempés épaisseur 4 mm appliqués sur les deux côtés du cadre en aluminium, disponible en quatre finitions différents, de manière à former un volume d'air interne. La porte est fournie avec un montant télescopique en aluminium, avec dimensions standard de 90 à 110 mm, dans la même finition que le cadre de la porte. En cas de dimensions plus grandes, merci de consulter les prix supplémentaires indiqués. Les verres, disponibles dans une large gamme de finitions, sont certifiés selon les normes de sécurité ANSI Z97.1 et UNI EN12150. Panneaux en grès et bois en différentes finitions et essences sont également disponibles. Le deux versions, avec porte simple ou double porte, sont disponibles avec ou sans serrure. Sur demande les contre-châssis pour placoplâtre et pour béton sont également fournis.

### ES

Las puertas Aladin Pocket Frame Duo son producidas a medida y son perfectamente integrables en los sistemas de puertas correderas empotradas más utilizadas. Estos paneles tienen cristales templados de 4 mm de espesor y están aplicados en ambas caras del marco de aluminio, disponible en cuatro diferentes acabados, con el fin de crear un volumen con una cámara de aire interna. La puerta está equipada completa de la jamba telescópica en aluminio con medidas estándar de mm 90 a 110 en el mismo acabado del marco de la puerta. Para medidas mayores se deben considerar los precios extra indicados. Los cristales, disponibles en una amplia gama de acabados, son certificados según las normativas de de seguridad ANSI Z97.1 y UNI EN12150. Estàn disponibles también paneles de gres y madera con diferentes acabados y esencias. Las dos versiones, con puerta singular o doble, pueden ser suministradas con o sin cerradura. A petición pueden ser suministrados los contramarcos para pladur y ladrillo.

### DE

Aladin Pocket Frame Duo Türen werden nach Maß hergestellt und sind mit den meistverbreiteten Führungsschienensystemen von Schiebe-Taschentüren kombinierbar. Die beidseitigen Glasfüllungen sind je 4 mm stark und gehärtet. Der Rahmen ist in vier verschiedenen Ausführungen erhältlich. Zwischen den Füllungen befindet sich einen Luftraum. Die Tür wird mit teleskopischen Pfosten aus Aluminium geliefert. Die Standardtiefe des Pfostens liegt zwischen 90 bis 110 mm und die Ausführung ist dieselbe des Rahmens. Für abweichende Dimensionen muss man die angegebene Extrapreise nachschlagen. Die Gläser, die in einer Vielzahl von Ausführungen erhältlich sind, sind gemäß ANSI Z97.1 e UNI EN12150 zertifiziert. Gres-und Holzpaneele in verschiedenen Ausführungen und Hölzern sind ebenfalls erhältlich. Die zwei Varianten, Einzeltür und Doppeltür, können mit oder ohne Schloss vorhanden sein. Auf Wunsch können Doppelrahmen für Gipskarton-und Betonwände geliefert werden.
